## Laborers Into His Harvest Continue *Sowing and Reaping* in These Troublesome Times

### *Sowing and Reaping* by Nation-Wide Evangelism Travel

↑ **All Above:** The COVID pandemic has made travel within the nation more difficult which has resulted in fewer new students for the Bible School. We shut down the school for two weeks so that staff and students could travel throughout Thailand evangelizing and recruiting new students. The school held revivals, foot-washing, and nailed signs everywhere (e.g., on Thai-style bus stops and in well-populated areas.) **The Harvest is White and there are Laborers on the way!**

**Bible School Website:** [www.thailandupc.org](http://www.thailandupc.org)

### *Sowing* into Services & Student Couples

↑ Brother Ryan Cox sowing the Shout of Faith that brought down Jericho's walls. Worshipping by praising and running in a circle resulted!

← Sowing the Word into these two young student married couples now will surely bring about a great harvest of souls in their future ministries. Strong families will bring forth strong churches!

### *Reaping Graduations & Baptisms*

**Above:** Our two newest graduates who attained the GATS two-year Associates Degree! **Above Right:** A new convert in one of our churches pastored by a Bible School graduate is baptized in the school decorative pond.
