# JAPAN UPC HELPING TO EVANGELIZE THAILAND

**This Newsletter gives honor to Japan UPC Churches and Members who are Partners in the saving of Thai people!**

For several years the saints in Japan have sacrificed to help fund evangelism and Bible School training. Below is one such evangelism initiated in March, a focused outreach to the lost in Thailand through the teaching of English to children. Our Bible School Head Teacher, Brother David Pondee initiated and leads this outreach. A young man came from this Buddhist village to study at the Bible School as a result!

Brother David is teaching about Adam and Eve, Noah, and other Bible stories in English, using explanations in Thai and helpful visual aids.

Thai people want to learn English only from "native English teachers". Over 50 children and some parents came to this first English class taught by a native English teacher that we hired.

Brother David captivates the children as he teaches Christian songs in English. Here he is teaching them the song "God is So God".

## Annual Thai Conference

Brother Jack Cunningham exhorting to unity at the conference which saw 14 baptized, 70 claiming healing and 144 professing to receiving the Holy Ghost. It was a blessing to see mothers praying with their children to receive the Holy Ghost, something not done in the past.

## Graduations

We were thrilled with there being five young men completing their two full years of study and training at the school. All have determined to live a life of ministry to the Thai people.

## SFC Vehicle

The Youth of UPCI have greatly blessed us with this SFC vehicle.

**THANK YOU!**
