A Church is Born!

How thrilling is the feeling to see a new place of worship going up at the hands of a small group of brand new believers! Because these folks are very poor it might be years before this House of Worship in Khonkaen is finished unless some of us do what we can to encourage them with our offerings. **The most urgent need is to have roofing materials costing \$1,500.** Once a roof is in place this "open air" building can be used for worship even without walls. If you would like to be a blessing to your Brothers and Sisters on the far side of the world, please send your tax-deductible offering to Foreign Missions Divisions at the address at the bottom of this letter, and write on your check **"Project 103.FA.033215.21.2109_.925"** or **"Thailand Church Roof"** and those funds will be sent to help build this roof. Prayerfully one of our upcoming quarterly letters will be able to show the building with the roof in place and the people worshipping in their open air church!

Sunday School Director

The Lord's Heritage

In June the Bible School provided donated funds for our **"Staff of Many Hats"** to travel to most of our churches to teach and to encourage the churches to focus more effort on the Youth Group and Sunday School work in Thailand.

Your loving donations are helping these precious little children and young people have opportunity to grow up in the Lord!
